Objective

I would like to obtain a position in the Graphic and Web Design field to work as part of a team and share my enthusiasm for innovative design.

Qualifications

I have the skills necessary to be a successful graphic designer, because I am creative, self-motivated, dependable, and I maintain good working relationships with others. Along with computer skills on Windows and Macintosh, I can use a variety of technologies, such as Adobe Creative Suite 4 to create, capture, and manipulate design elements in producing a final web or print product. I enjoy challenges, working hard, and achieving goals by always doing my best.
